RE: Career Connect Washington Contract Number K8749 Monitoring Letter

Dear Tyler Menezes:

The purpose of this letter is to inform you that the Employment Security Department's Workforce Monitoring Unit (ESD's Monitoring Unit) has completed the virtual monitoring review of contract K8749 between ESD and Student Research and Development on October 8, 2025.

Background
The Career Connect Washington (CCW) program was established in 2017 to bridge the gap between employers and educators by providing the connection, funding, and support they need to deliver high quality academic and work-based experiences for Washington students. Washington State's CCW program is made possible by the support and funding from the US Department of Labor's Workforce Innovation and Opportunity Act.

Monitoring Review of Contract K8749
The monitoring review was conducted in accordance with the Uniform Administrative Requirements 2 CFR Part 200, contract terms and conditions, and the statement of work as outlined in contract number K8749.

ESD's Monitoring Unit and oversight team for the administrative and fiscal review of the CCW program has determined that there were no findings, disallowed costs, questioned costs, nor items to address in the expenses reviewed. We found that Student Research and Development's expenses were reasonable, allowable, and allocable to the contract.

The enclosed observation report that was shared during the exit meeting outlines the scope of the review and the determination status of each monitoring item. Additionally, the observation report includes any recommendations or observations that were identified during the review process. The review process requires ESD's Monitoring Unit to randomly sample one or more of the budget line items outlined in the contract.

During the review period, ESD's Monitoring Unit obtained source documentation from your organization to conclude reasonable assurance that funds were spent according to the objective of the contract.

If you have any questions regarding the review or the attached observation report, please feel free to contact Maria Cheeseman directly at 360-972-0530 or maria.cheeseman@esd.wa.gov.

Sincerely,

Phouang Hamilton
WIOA Monitoring Manager
Employment Security Department
